Online Courses

Beginning Farmers Project

Whether you are an aspiring, new or experienced farmer, we have an online course for you!

About the Courses

- Interactive 6-week courses connect you to the information and people you need to start a successful farm business or diversify your farm
- Led by experienced educators & farmers
- Take a single course or start at the beginning and work your way through the courses in order
- While most courses can be taken by people anywhere in the world, check the course description to confirm whether your course is targeted to those farming (or planning to farm) in the Northeast US
- Most courses are $200 each

How to Choose

For help picking the right class, visit http://nebeginningfarmers.org/online-courses/
