

Growing the Next Generation of Farmers From Seed to Success

STEP 4—COMPETENT TECHNICAL ASSISTANCE PROGRAM

Individualized syllabus Production, marketing and financial training Address land access Equity building opportunities One-on-one with a LSP staff advisor Guided by experienced farmers Guided by technical support personnel

COMPETENT

Use a strategic plan to inform decisions and achieve goals. Actions are seen in terms of longer term goals and with practical knowledge of how a farming system works.

STEP 3—ADVANCED BEGINNER FARM BEGINNINGS

10-Month training program Whole farm and enterprise planning Connection to farmer network Growing season learning plan On-farm field days and workshops

ADVANCED BEGINNER

Start to apply knowledge of key aspects of farming to planning for future success. Draw on one's own experiences to anticipate future needs and outcomes.

STEP 2—BEGINNER FARM DREAMS

Day-long workshop Explore whole-farm planning Complete personal assessments Create an action plan

BEGINNER

Starting to gather a working knowledge through practice on a farm. Actions are viewed in a series of steps leading to a specific outcome. Trial and error are an important learning tool and best done with little risk involved in the outcomes.

STEP 1—NOVICE ON-FARM TRAINING ACTIVITIES

Field days Skill sessions Farm visits Work exchanges Internships/Employment Conferences/Workshops

NOVICE

Knowledge of farming is limited to what one can read in a book. Knowledge is not connected to practical application. Actions are isolated from the complex whole of a farming system.
